DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 03/11/2009 has been entered.

Election/Restrictions

2. Newly submitted claims 171 and 172 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: claim 171 recites choosing between a higher data throughput and a lower data throughput, wherein the data throughput is effected by employing different lengths of a length-adjustable code; claim 172 recites choosing between a higher data throughput and a lower data throughput, wherein the data throughput is effected by employing different frequency hopping rates.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 171 and 172 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

3. Claims 26-31, 75-76, 78-89, 91-101, 103-112, 115-126, 128-140, 142-170 allowed.
